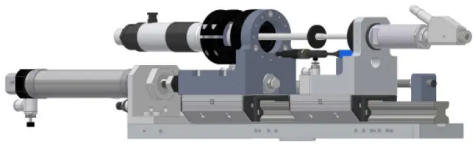
UA Screwdriver Unit Slides

Categories: A-Automation Systems, Automatic Screwdriving · **Brand:** SIRATEC



Description

UA-HZ SERIES

Dual motion: 2 cylinders. In addition to the screwdriver, the head also moves toward the fastening point (approach).
Same features as the basic slide (UA-H).
Each type of slide can be equipped with a vacuum system, which allows for fastening in locations with recessed mounting holes and/or obstructions caused by the workpiece.

Brand

SIRATEC

SIRATEC is a company specializing in the design and manufacture of custom technical solutions for the automation of assembly and fastening processes, with a strong focus on innovation, ergonomics, safety, energy efficiency, and reliability.
