Auxiliary Power Supply

Categories: A-Automation Systems, Automatic Screwdriving · **Brand:** NITTOSEIKO

Rotating auxiliary hopper.
Auxiliary hopper with a quick-release coupling for easy installation and removal.
Low noise emissions. Thanks to the motor, the movement generates much less noise than components with vibrators.

Brand

NITTOSEIKO

Founded in February 1938, Nittoseiko specializes in fastening technologies and assembly automation, developing customized solutions based on customer needs.

Its technologies are used in the automotive, electronics, home appliance, and telecommunications industries, as well as in the production of automated assembly systems.
