KNR Stall Torque Multipliers

Categories: M-Hand Tools, Uncontrolled, jerky, and stuttering tightening · **Brand:** Kuken

Description

KUKEN KNR stall torque multipliers are designed for tightening and loosening couplings in industrial applications. These tools offer a reliable and safe solution.

KNRs have two speeds: high speed until contact is made, and low speed to complete the tightening of the screws.

Brand

Kuken

A Japanese company specializing in the design and manufacture of pneumatic tools and transducer-equipped torque multipliers for industrial applications.

Quality, determination, and innovation have made Kuken an internationally recognized brand for its specialized solutions.
