Description

For Integrated I/O

Brand

ESTIC

"A safer future for the world."

Estic develops comprehensive assembly solutions with the goal of creating safer work environments and increasingly reliable industrial products.

Its goal is to become the global leader in assembly technologies. The company offers fastening, pressing, and assembly systems for the automotive, aerospace, and other industrial sectors.

For nearly thirty years, it has been listening to its customers' needs, developing customized solutions, and providing expert technical support.
