# DLV04 Controller

**Categories:** M-Hand Tools, Torque-Controlled Screwdriving · **Brand:** Delvo

## Description

**Controller Unit for the DLV04 Series**

Counting function: Process counting; integrable workpiece presence sensorExternal controls
: Process start via

external signalRecordable torque and speed values for each channel

## Brand

**Delvo**

Nitto Kohki's Delvo electric screwdrivers are designed for industrial use, with a particular focus on torque control via mechanical clutches and current consumption control.

Reliability and precision are core values of the Delvo system, ensuring high performance and safety for operators.
