# US-LD Torque Screwdrivers

**Categories:** M-Hand Tools, Uncontrolled, jerky, and stuttering tightening · **Brand:** Uryu

## Description

**The models in the US-LD series are direct-drive screwdrivers that stop when the target torque is reached.**

The applied torque is controlled by the operator and the motor power. The torque level is adjusted via air pressure.
Recommended pressure: 0.6 MPa

## Brand

### Uryu

Founded in February 1915, Uryu specializes in the design and manufacture of high-quality, reliable industrial tools.

Throughout its history, the company has developed a comprehensive line of pneumatic, electric, and electronic tools for a wide range of industrial sectors. The company is particularly well-known for its hydraulic impact screwdriving solutions, which are available with pneumatic, corded electric, and battery-powered power sources.
