Non-standard reach lengths available upon request
Contact our offices to determine the most suitable ergonomic solution for your workstation and the correct accessories for precise arm interfacing
Available sizes: 3

Brand

BNP

BNP S.r.l. is an Italian company that develops ergonomic solutions for industrial assembly, such as reaction arms, manipulators, and systems for production process control.
The goal is to improve efficiency, quality, and workplace safety by reducing the physical strain on workers through innovative technologies and advanced materials, such as carbon fiber. It has been in business since 1995 and serves major international manufacturing companies.
