Handy 2000 Pistol-Grip Screwdriver

Categories: Controlled Electronic Screwdriving, M-Hand Tools · **Brand:** ESTIC

Description

Pistol-grip screwdrivers are suitable for many applications, including multi-spindle and ergonomic arm configurations. Compact and lightweight, they deliver high performance up to 3,075 rpm (model H-1030-P at 30 Nm), ensuring productivity and speed.
The built-in LEDs, visible from every angle, provide immediate tightening feedback, with seven programmable colors for OK, NG, and rotation direction.
The ergonomic handle ensures a stable and comfortable grip, ideal for extended use.
*** Maximum speed during the super-fast approach phase with HT45 and HT50 controllers powered by 220V
Models up to 120 Nm are also available with a shaft equipped with a PIN or a BALL , to be specified when ordering.
PH = broaching for flange mounting
COT: top-mounted power supply; add to the part number when ordering

Brand

ESTIC

"A safer future for the world."

Estic develops comprehensive assembly solutions with the goal of creating safer work environments and increasingly reliable industrial products.

Its goal is to become the global leader in assembly technologies. The company offers fastening, pressing, and assembly systems for the automotive, aerospace, and other industrial sectors.

For nearly thirty years, it has been listening to its customers' needs, developing customized solutions, and providing expert technical support.
