MIF EHC2 Control Unit

Categories: Controlled Electronic Screwdriving, M-Hand Tools · **Brand:** ESTIC

Description

You can connect and control up to 10 Wi-Fi tools via WLAN access points.

Storage capacity, clamping results:
100,000/1 workstation
Graphs: 1,000/1 workstation
System error: 1,000
DC Output Power: DC 24 V, max. 1.5 A
EH2-PC: Windows software

Brand

ESTIC

"A safer future for the world."

Estic develops comprehensive assembly solutions with the goal of creating safer work environments and increasingly reliable industrial products.

Its goal is to become the global leader in assembly technologies. The company offers fastening, pressing, and assembly systems for the automotive, aerospace, and other industrial sectors.

For nearly thirty years, it has been listening to its customers' needs, developing customized solutions, and providing expert technical support.
